

1961 Ford Falcon Utility

Dear Sir/Madam,

My name is Rob Willcockson. I have a nice May 1961 Ford Falcon utility for sale. R588 made in the Brisbane Plant.

I was wondering if any of your members might be interested?

I have enclosed a description of the ute and some pics.

My address is at Berkeley Vale, on the Central Coast NSW.

I would really appreciate it, if you would display it for your

Members on the noticeboard, or tell them about it at one of your meetings?

Thank-you very much.

Kind regards,

Rob Willcockson
